AMINE of Paper No. 20061129

Continuation of 5 Other: In the applicant's remarks, page 11 includes a plurality overwritten words. For example, "schema.dtd (conformance)," "schema.xml," and another word portion overwrite portions of the page. While the examiner believes these are intended to be labels for the figure presented on page 11, it is unclear where these labels are intended to be positioned. Instead of risking unintentionally misinterpreting the words or figure, the examiner would like the applicant to correct the remarks so that the examiner may view them as intended.
